## OUR STUDENTS' SPEAK...

"My journey at C P Goenka International School began only a few months ago, yet it has already left a huge impact on me. Even on the online learning platform it feels no different than attending school physically. Through Sociology, I am now able to get a better understanding of the world at large as well as how individual behaviour can affect people which has resulted in me, looking at things from various points of view. I need to maintain a blog for media studies which has enhanced my writing skills and time management skills due to the heavy workload. The comments by teachers on assignments are extremely detailed and beneficial as they point out just what is to be done to raise the standard of my work. The school has motivated me to achieve excellence in everything I aim to do further on and these traits that I have learnt here and will continue to learn for the next one and a half year, will surely help me reach my goal."

**Adwita Negi**

"When I first walked through the gates of C P Goenka International School, there was this vibrant aura in the atmosphere that I can't fully describe, yet it made me feel at ease and there is nothing better than a School that knows how to embrace their student's capabilities and all that was visible throughout the school - their trophies, pictures and artwork. Teachers at School have encouraged, inspired and motivated me to become the best versions of myself. I have attended various workshops and seminars, which has helped me become an active speaker and develop team building skills. I have been lucky enough to be given different platforms to express myself."
